

Fiz-iks is group of international artists based in Japan that have chosen photography and animated video as there medium. They specialize in light painting photography for the still and animated images.

CFYE is a platform for exploring and showcasing the thoughts and works of inspiring creative people. They offer a broad selection of people and subjects, and with that, they also offer a platform which brings some extra exposure to the creatives that inspire us so much. Always open for new contacts and works, because in the end, they just want to make nice things with great people!
